**Grand Theft Auto San Andreas-SKIDROW.iso Zip Password**

[Download](#)

You probably downloaded an encrypted .zip file from some questionable site. You should not have done that. Especially if "allow (file) to make changes to your computer" ... or "allow (file) to make changes to your computer". As a result, your computer will automatically install the malware and you might not even notice any changes. Even worse, the malware will not be removed from your computer. Usually, a user cannot remove malware because he or she does not know how to do it.
